If you have yet to support our school through Community Investment, the last day to give is June 30, 2019. Please [click here](#).

Thank you again and have an amazing summer!

### Headmaster's Corner

This year our cultural goal was to grow our growth mindset, meaning to become learners who are not afraid to risk making mistakes, who persevere in trying different strategies and making full effort to learn new things while sticking that new learning to the things we already know are true.

We may not be able to do something, but our attitude is not, "I cannot do this"; our attitude is "I cannot do this, YET!" I am willing to keep trying, to get help, to try different strategies, until I can do it. The challenge is something I learn to enjoy and embrace, knowing that by doing so, I am becoming a better person, more learned, more skilled,

more fulfilled, more able to be the person I was created to be and contribute to the good of myself, my family, my friends, my community, and even my world.

Our summer challenge is to continue growing our growth mindset, especially in our families. Family life is often demanding, but we cannot give up. We must confront those daily challenges with love, with courage, and with a willingness to do whatever it takes to get better and make things better for everyone entrusted to our care.

My hope for all our families is that we have a Growth Mindset Summer!

See you in August if not before. I want to hear some growth mindset stories from all of you. I love being your headmaster! Thank you for the privilege of serving such beautiful, truthful, and good people.
