Third Grade Math Journal: Week of March 23, 2020

Name: _____ #: _____ Date: _____

Monday

Journal Prompt: Would you rather have $\frac{3}{4}$ of a candy bar or $\frac{5}{8}$ of a candy bar? Use math to explain your thinking!

Reflection: _____

Third Grade Math Word Problem of the Day: Week of March 23, 2020

Name: _____ #: _____ Date: _____

Directions: For each word problem, create a bar model, solve, and then answer in a complete sentence.

Monday Word Problem

Mark loves animals and has many pets of his own including 3 cats, 2 dogs, 3 hamsters, and 4 goldfish. What fraction of his animals are cats? What fraction are dogs? What fraction are hamsters? What fraction are goldfish? Be sure to answer in simplest form!

Bar Model:

Solve:

Answer: _____

Monday March 23, 2020 - Hello 3rd grade artists! I hope you are having fun during the extended Spring Break. I want you to continue thinking about the master works we have been studying so I created this page for you to think about and work on while you are away from school. All you need is a pencil and your knowledge from this year to fill in the blanks.

By the way, I have fired the pinch pots and they will be ready for you when you return. Do you remember where I take the pinch pots in order to fire them? It is called a kiln and it works much like an oven. I think you will be very happy to see how great they turned out.

"It is only by drawing often, drawing everything, drawing incessantly (constantly), that one fine day you discover, to your surprise, that you have rendered (made) something in its true character." **Camille Pissarro (1830-1903)**

This painting was created in 18__ by V_____ V__ G _____. In this painting we can see he used complementary colors. There are three sets on the color wheel. One example of complementary colors is red and green. In this painting, the largest example seen is _____ and _____. These colors are opposite on the color wheel. Whisper to your pencil the colors in the third and final set.

_____ Cassatt painted this in 1893. The name of this painting is very logical, "The _____ Bath". When we sketched this in class, we talked a lot about positive and _____ space. Can you point out two objects that fill the positive space? When you come back to school, we will create a _____ color painting of this master work. Originally, this was an oil painting. Was this artist painting her subject realistically or abstractly? Point to an example of abstract art on this page.

French master artist, Henri _____ (pictured right), did not paint this famous work but used cut-outs of _____ instead (just like we did). This artwork, from 1944, was named after a famous myth about a father and a son who used wings to escape from the island of Crete. The son, _____, made wax wings though and fell from the sky when the wax that joined his wings was melted by the heat of the sun.

We just finished this project and you put forth great effort. We used a specific medium for this art piece. Art mediums refer to the art materials or artist supplies used during a project. Do you remember what we used for this project? Chalk pastels or oil pastels? Did we use warm colors or cool colors? There are three prime colors: r __, y _____ and b _____. Two of those colors are warm and one is cool. Write down the name of the cool color: _____. Do you remember who painted this in 1928? J _____ C __ p ____.
