Monday Math

Instructions: Read each question below. Either print this page and use the provided space to complete, or solve on your own paper.

Part One: Many things come in sets of 4! For example, a chair has 4 legs. Look around your house and think of other items that come in groups or sets of 4. Use the space below to draw examples of objects/items that have a set of four.

Part Two: Solve the following word problem with a picture, number bond, and equation. Hint: are we using multiplication to solve? Does our number bond need more than two parts?

Maverick decides to organize his bookshelf. There are 5 shelves. Maverick puts 4 books on each shelf. How many books does he have altogether?

Maverick has _____ books altogether.
