

ARCHWAY CLASSICAL ACADEMY | GLENDALE A GREAT HEARTS ACADEMY

Dear Archway Glendale Families,

As we prepare for distance learning, we want to make certain that your family has the necessary IT equipment to allow your children to successfully engage in our distance learning program. In yesterday's e-blast, we mentioned how each student will need a device during distance learning. We asked families to email the office if they needed additional devices, but rather than emailing the school office, please complete the following short tech survey by **4PM on Thursday, July 23: [Great Hearts Tech Survey](#)**

Should you be interested in purchasing your own device for distance learning, all computers will require the following minimum requirements:

- 4 gb RAM
- Operating system, either: Win10 or Chrome OS

Additionally, here's a list of a few suitable alternative devices we have identified, ranging in price from \$169 to \$219

1. [HP Chrome Book from Best Buy](#)
2. [ASUS Chrome Book from Best Buy](#)
3. [ACER Chromebook from Walmart](#)

If you have any questions, please feel free to reach out to us directly: [Archway Glendale Office](#) or [Jack Kersting, Headmaster](#).
