

Special Event Parking

Please carefully read this procedure while looking at the "Event Parking Traffic Map" on the next page.

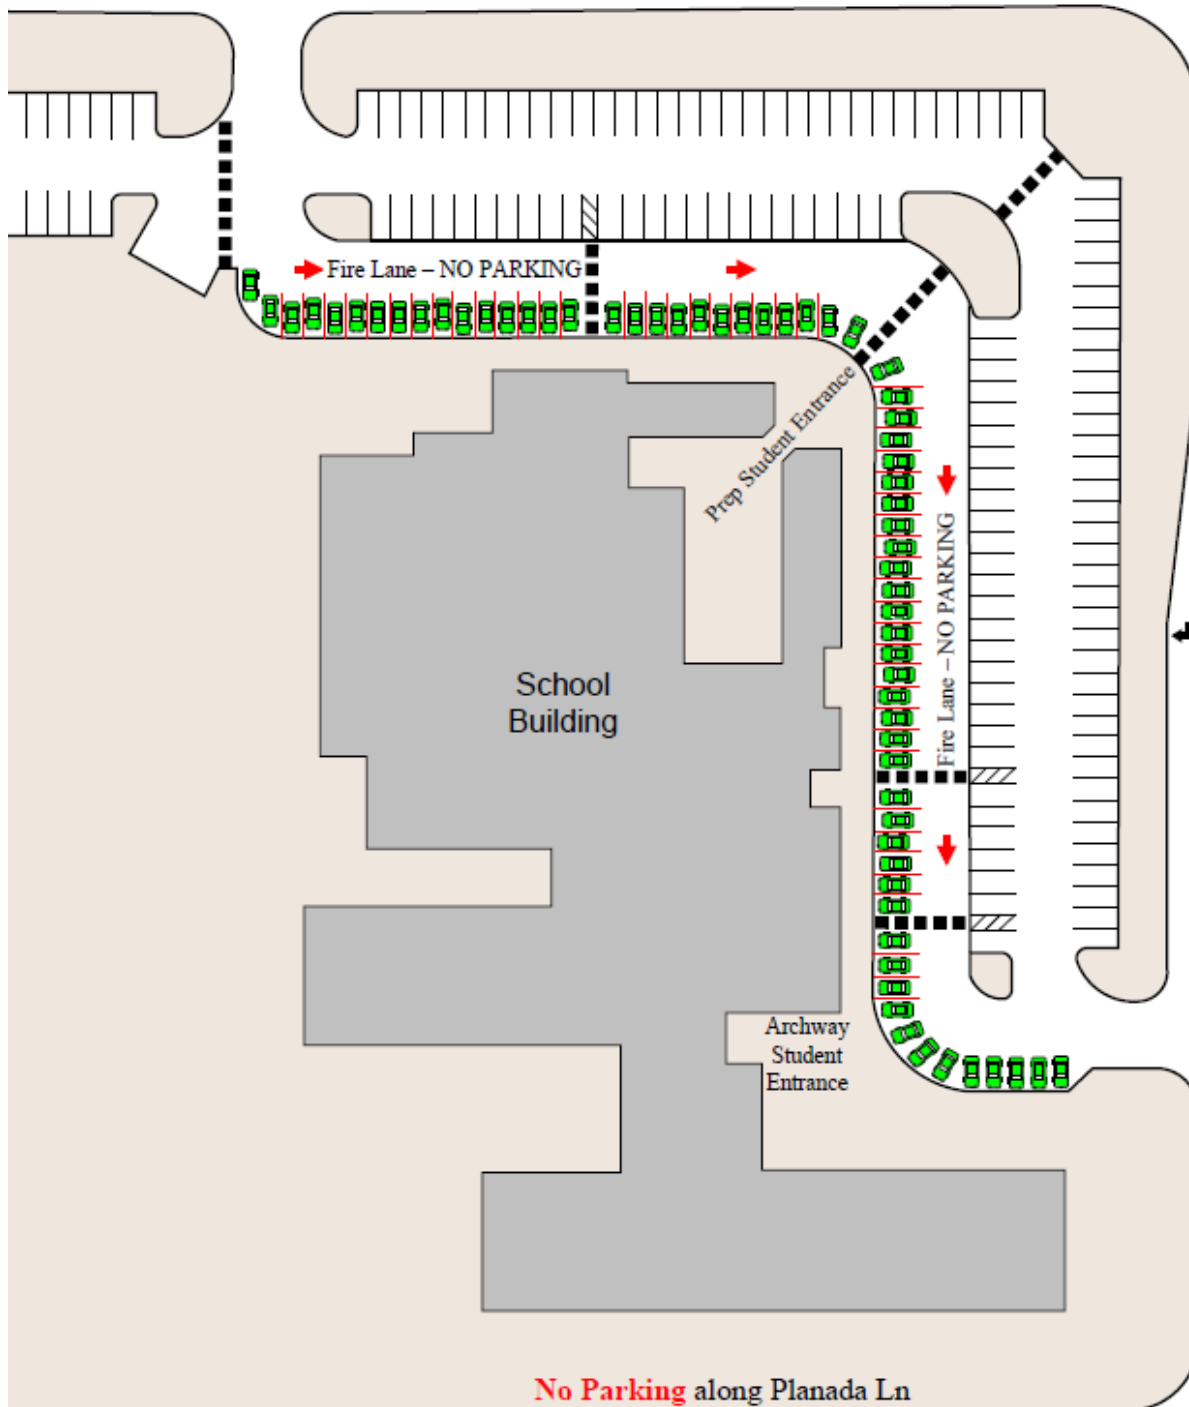

1. **Arrival on Campus:** Please do not arrive on campus to park more than 15 minutes before your scheduled event.
2. **Entering the Parking Lot:** Cars may only enter the parking lot through the 83rd Avenue entrance. Traffic is always one-way.
3. **Walking to Campus:** If you live nearby, please obey traffic signs and use designated crosswalks. If you live east of 83rd Avenue, you must use the crosswalk at Pinnacle Peak and 83rd Avenue. *You may not cross 83rd Avenue at Planada Lane.*
4. **Special Parking Procedures:** To maximize parking capacity, the first 60 cars to enter the lot will park perpendicular to the building's sidewalk. Cars should pull all the way up to the next available spot and pull forward to the curb. Leave crosswalks open.
 - a. **Do not begin parking in the lot until the curb spots are filled.** Once these spots are filled, please park in any open spaces.
 - b. During event parking, traffic should be **a single one-way lane.**
 - c. Please **do not park** on Planada Lane. *Vehicles may be ticketed for doing so!* Parking is available on Pinnacle Peak Road, east of 83rd Ave. *Please watch for no parking signs and obey them.*
5. **Entering the Building:** Please follow posted signage for the appropriate entrance to the event.
6. **Exiting the Parking Lot:** Please exit the parking lot through the 83rd Avenue exit. All traffic should move in a single one-way lane before and after events.
